# **Ergonomic Products and Material Handling Equipment Show With Ergonomic Seminar By Don Triggs, MS, CPE**

Don Triggs is currently employed as a Senior Ergonomist for Equipois Inc. Don's responsibilities include advising customers on the application of Equipois' zeroG technology to reduce/eliminate the risk of musculoskeletal injuries. He is also involved with the development and design of new components that interface with the zeroG technology to ensure that human factors and ergonomic design is incorporated into the final product.

Don holds an MS in Industrial and Manufacturing Engineering from the University of Wisconsin - Milwaukee and a BS in Manufacturing Engineering Technology from Mankato State University (now known as Minnesota State University – Mankato). Don is a Certified Professional Ergonomist by the Board of Certification of Professional Ergonomics.
